Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2017 - December 31, 2017

Filing Confirmation Number: 0008063654

Filing Deadline: January 16, 2018

FRN: 0009572884

Filing Date: 01/16/2018 07:37 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? No

Were you a small entity at any time during the three years prior to the end of the reporting period? No

Date that you ceased to be a small entity?

Company Information

Company Name: Commnet Four Corners, LLC

Brand Names: Choice
Choice Wireless

PO Box:

Street Address: 400 Northridge Rd, Suite 325

City: Atlanta

State: GA

Zip Code: 30350

Contact Name: Rohan Ranaraja

Contact Phone: (501) 448-1249

Contact Fax:

Contact Email: rranaraja@atni.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: <https://us.choice-wireless.com/hearing-aid-compatibility.html>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: All handset placards in retail stores clearly identify the M-T Ratings for each device. Customers are provided a 15-day trial period during which a customer may try out the handset and determine whether the device works properly with the customer's hearing aid. The M-T Ratings for each device is also listed on the Company's website. The Company also provides contact information on the Company's website that customers may use to have questions relating to hearing aid compatible handsets answered.

Sales and Call Center employees are trained and familiarized with HAC-Accessibility requirements and ratings regularly so that such personnel are able to provide accurate information and assist customers in an informed manner. A mandatory computer based training program is conducted annually for all front line employees. Employees are also provided access to HAC-Accessibility information and requirements on the company intranet to ensure employees are able to respond to customers promptly and accurately.

Methodology for Functionality Levels

Functionality level describes the general capabilities of each device. The Company has categorized its handsets into three tiers based on functionality.

Tier 1 devices primarily offer voice and texting service with basic data features/functionality.

Tier 2 devices offer some advanced data features and functionality in addition to voice and texting service. Tier 2 devices are not the latest but relatively new to the company's device line up.

Tier 3 devices offer the most advanced and recent data features and functionality in addition to voice and texting capability. Tier 3 devices are generally the most recent additions to the company's device line up.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 37

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
CDMA	34	92%	3	8%			37

Handset 1: Alcatel One Touch Ultra 960C

Handset Maker

Alcatel

Handset Model Name FCC ID

One Touch Ultra 960C RAD278

Air Interfaces/Frequency Bands

850 MHz CDMA
1900 MHz CDMA

Dates

This handset model was offered from: 08/13 to 12/17

Ratings

M-Rating: M4

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911?
